INNOVATIVE BIO-ORGANIC FERTILIZER

Consumer Testimonial

"What I didn't like was the fact that I had to use 6 different types of fertilizers/nutrients which also cost a bundle.

I was determined to find one that could do the job of all. My first crop using it is literally dripping with flowers and terpenes.

I couldn't be more thrilled with my results. I now have what I'd call an award winning crop of CBD! Thanks Nurture Growth!"

Pat S, London, ON, July 2019

For best results, please follow the application guideline.
Misuse of this product may be harmful to plants.

1. Mix Nurture Growth Bio thoroughly with water as per application guideline chart.
2. Spray as per application guideline.
